

ABC Diagnostic Imaging Center (Simulated)
(For Academic & Research Demonstration Only)

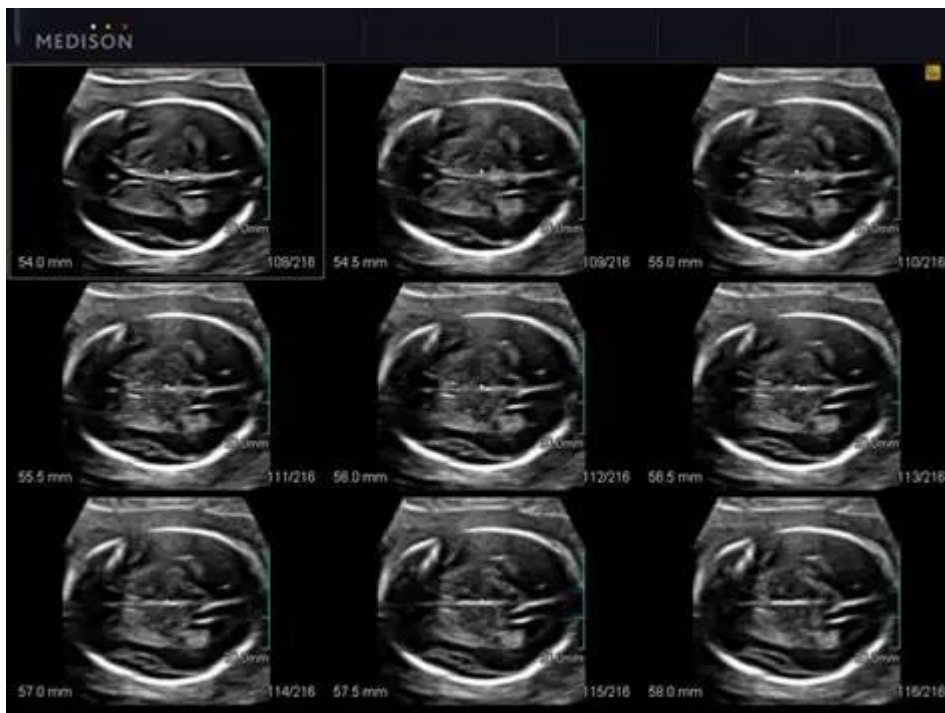

Patient Details

- **Patient ID:** PREG_001
- **Age:** 26 years
- **Gender:** Female
- **Gestational Age:** Second Trimester

Scan Information

- **Scan Type:** Obstetric Ultrasound (2D)
- **Date of Scan:** 2026-01-03

 **Ultrasound Image**

Findings

- Standard fetal planes are adequately visualized
- Fetal brain anatomy appears normal
- No evidence of ventriculomegaly or structural abnormality
- Amniotic fluid volume appears within normal limits

Impression

Normal obstetric ultrasound findings.

No abnormality detected at the time of examination.

Recommendation

- Continue routine antenatal care
- Follow-up scans as per standard antenatal schedule

Remarks

This is a **simulated ultrasound report** created for demonstrating a **Doctor-in-the-Loop AI-based clinical reporting system**.
No real patient data is used.

Radiologist: Dr. XYZ (Simulated)
